-

Step 1 — Rear Cover

- ⚠ Make sure your phone is powered off.
- Turn the front of the phone away from you.
- Run your fingers along the sides of the phone to identify where the case can be pulled apart.

Step 2

- Insert the flat end of your plastic opening into the crevice you found along the side of the phone.
- Gently apply pressure until you feel the back case pop free of the phone.
- Continue the previous two steps around the rest of the phone until the case is fully removed.

To reassemble your device, follow these instructions in reverse order.
