 **TOOLS:**

- [Coin \(1\)](#)

 **PARTS:**

- [Bose Accessory Battery \(1\)](#)

Step 1 — Battery

- Using your thumbnail or a coin, push in the slotted knob on the battery and turn it counterclockwise to unlock the battery.

Step 2

- Carefully pull the battery away from the back of the system.

Step 3

- On the new battery, make sure the slot in the knob on the battery is in a horizontal position.
- Insert the battery into the multi-pin connector.

Step 4

- Push in the slotted knob and turn it clockwise until the slot is vertical. This locks the battery in place.

Step 5

- Connect the power supply and charge the battery.

To reassemble your device, follow these instructions in reverse order.
