

# Braun Aromaster KF440 Base Replacement

This guide breaks down the steps to removing the base of the coffee maker to reach the internal components.

Written By: Darcy Groom

---

## INTRODUCTION

Removing the base is necessary in order to reach many of the other major components of the coffee maker.

### TOOLS:

- [Slip Joint Pliers](#) (1)
  - [iFixit Opening Tools](#) (1)
-

## Step 1 — Access the base

- Remove the carafe (coffee pot) from the coffee maker.
- Turn the Braun Aromaster KF 440 upside down so the base is exposed.

## Step 2 — Remove the nut

- Locate the nut at the center of the base and unscrew it with a pair of basic pliers.

### Step 3 — Remove the cover

- Gently lift the cover away from the bottom of the coffee maker and remove it.

To reassemble your device, follow these instructions in reverse order.
