

# CHI Original Power Cord Replacement

This guide will show you the steps necessary for deconstruction and replacement of the power cord.

Written By: Eric Knigga

## INTRODUCTION

This guide will show you the steps necessary for deconstruction and replacement of the CHI Original power cord.

### TOOLS:

- [Metal Spudger \(1\)](#)
- [ESD Safe Tweezers Blunt Nose \(1\)](#)
- [Phillips #1 Screwdriver \(1\)](#)

## Step 1 — Hinge Spring

- Insert a nylon or metal spudger under the plastic CHI spring covers. Pry them up to pop them off. Do this for each side.

## Step 2

- Remove the .53" long screw from the hinge pin.

## Step 3

- Remove the hinge pin.

## Step 4

- Separate the two halves of the CHI Original.

## Step 5

- Remove the spring pin with a pair of pliers or tweezers.
- Remove the spring.

## Step 6 — Power Cord

- Remove (2) .31" Phillips head screws from back cover.
- Remove cover.

This document was generated on 2019-09-30 05:57:42 AM (MST).

## Step 7

- Gently pull upwards on the connection point and disconnect the power cord.

To reassemble your device, follow these instructions in reverse order.
