Step 1 — Getting In

- This device has a lot of screws and layers, and some hidden tricks. The first step is to pop off the speaker grilles, and remove just the top two screws.

Step 2

- Here's the inside, with the top cover full removed.

Step 3 — Getting Deeper

- Some detail photos of the front display/volume knob and the CD player.

To reassemble your device, follow these instructions in reverse order.
