Canon EOS 30 Front Panel Replacement

How to remove your camera's front panel.

Written By: Sterling Vinson

INTRODUCTION

Removing the front panel is the first step to accessing many internal components. Removal is safe, simple, and only requires a screwdriver.

TOOLS:

- Phillips #00 Screwdriver (1)

PARTS:

- Canon EOS 30 Inner Eyepiece (1)

Step 1 — Front Panel

- Remove the two 4.8 mm black screws above the lens on the front of the camera.

Step 2

- Remove the 4.3 mm black screw under the lens ring, and the 4.8 mm black screw under the camera.

Step 3

- Remove the 4.8 mm black screw on the left side of the camera.

Step 4

- Remove the front panel by lifting it away from the camera's body.

To reassemble your device, follow these instructions in reverse order.
