# Canon EOS 30 Strap Loops Replacement

How to remove strap loops.

Written By: Alexander Gonzalez

INTRODUCTION

The strap loops can be safely accessed and removed.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Top Panel

- Slide the outer eyepiece upward to remove it.

Step 2

- Remove the two 4.75 mm black screws located on the top of the camera.

Step 3

- ● Remove the four 4.3 mm black screws near the bottom corners of the eyepiece at the back of the camera.
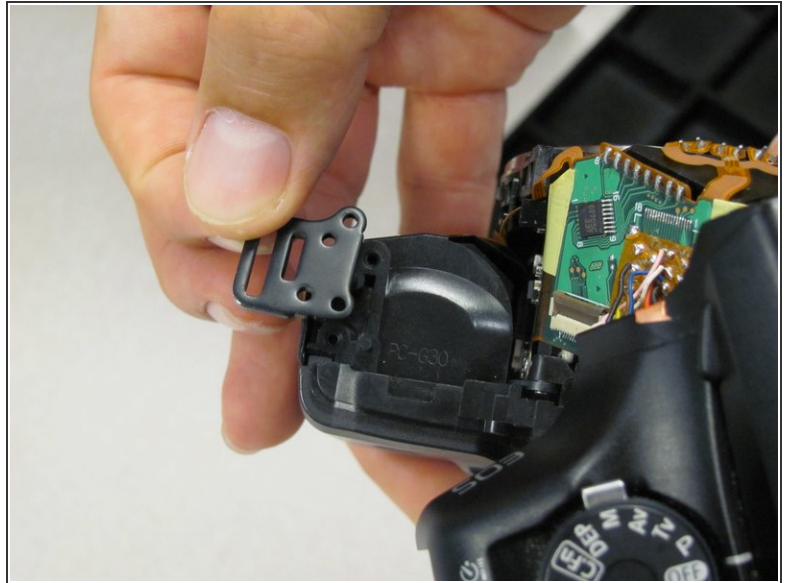

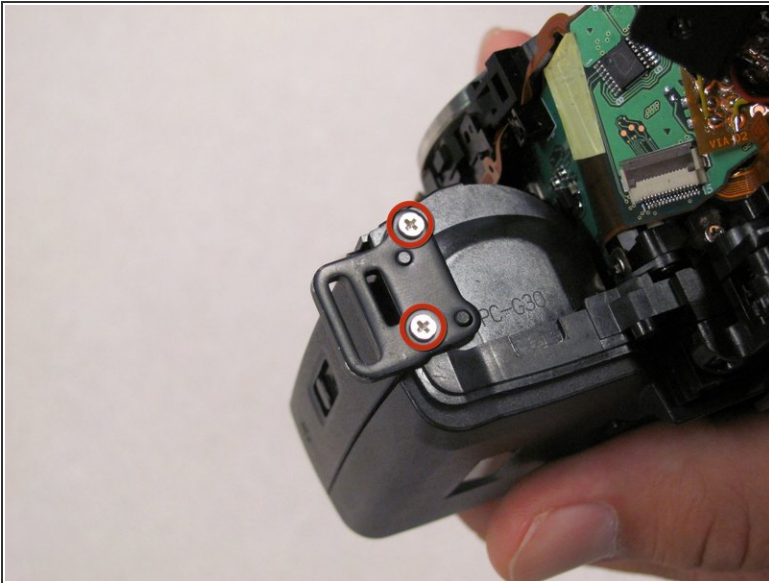

Step 4

- ● Slowly separate the top panel from the camera by pushing it upward.
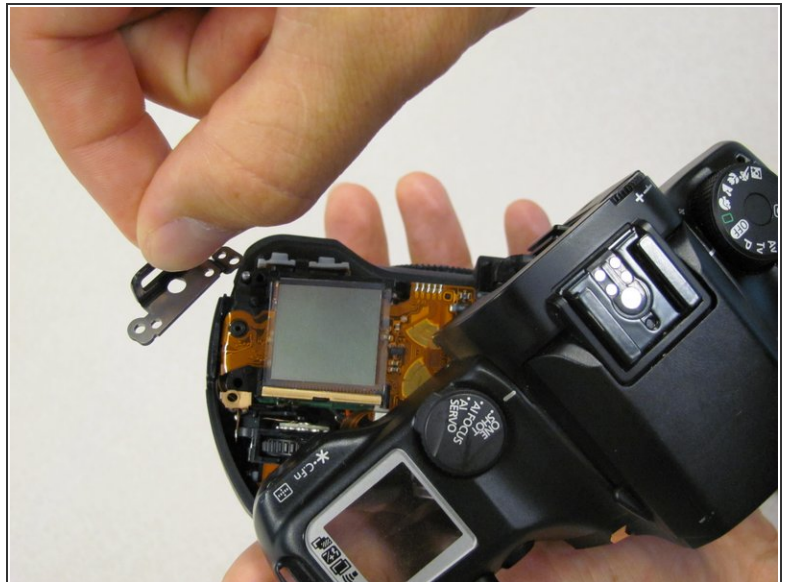

- ⚠ Separating the top panel too far or quickly can damage the ribbon cable and connecting wires that are still attached to the top panel of the camera.
