Canon PIXMA iP3600 Printhead Replacement

How to replace the printhead.

Written By: Caitlyn
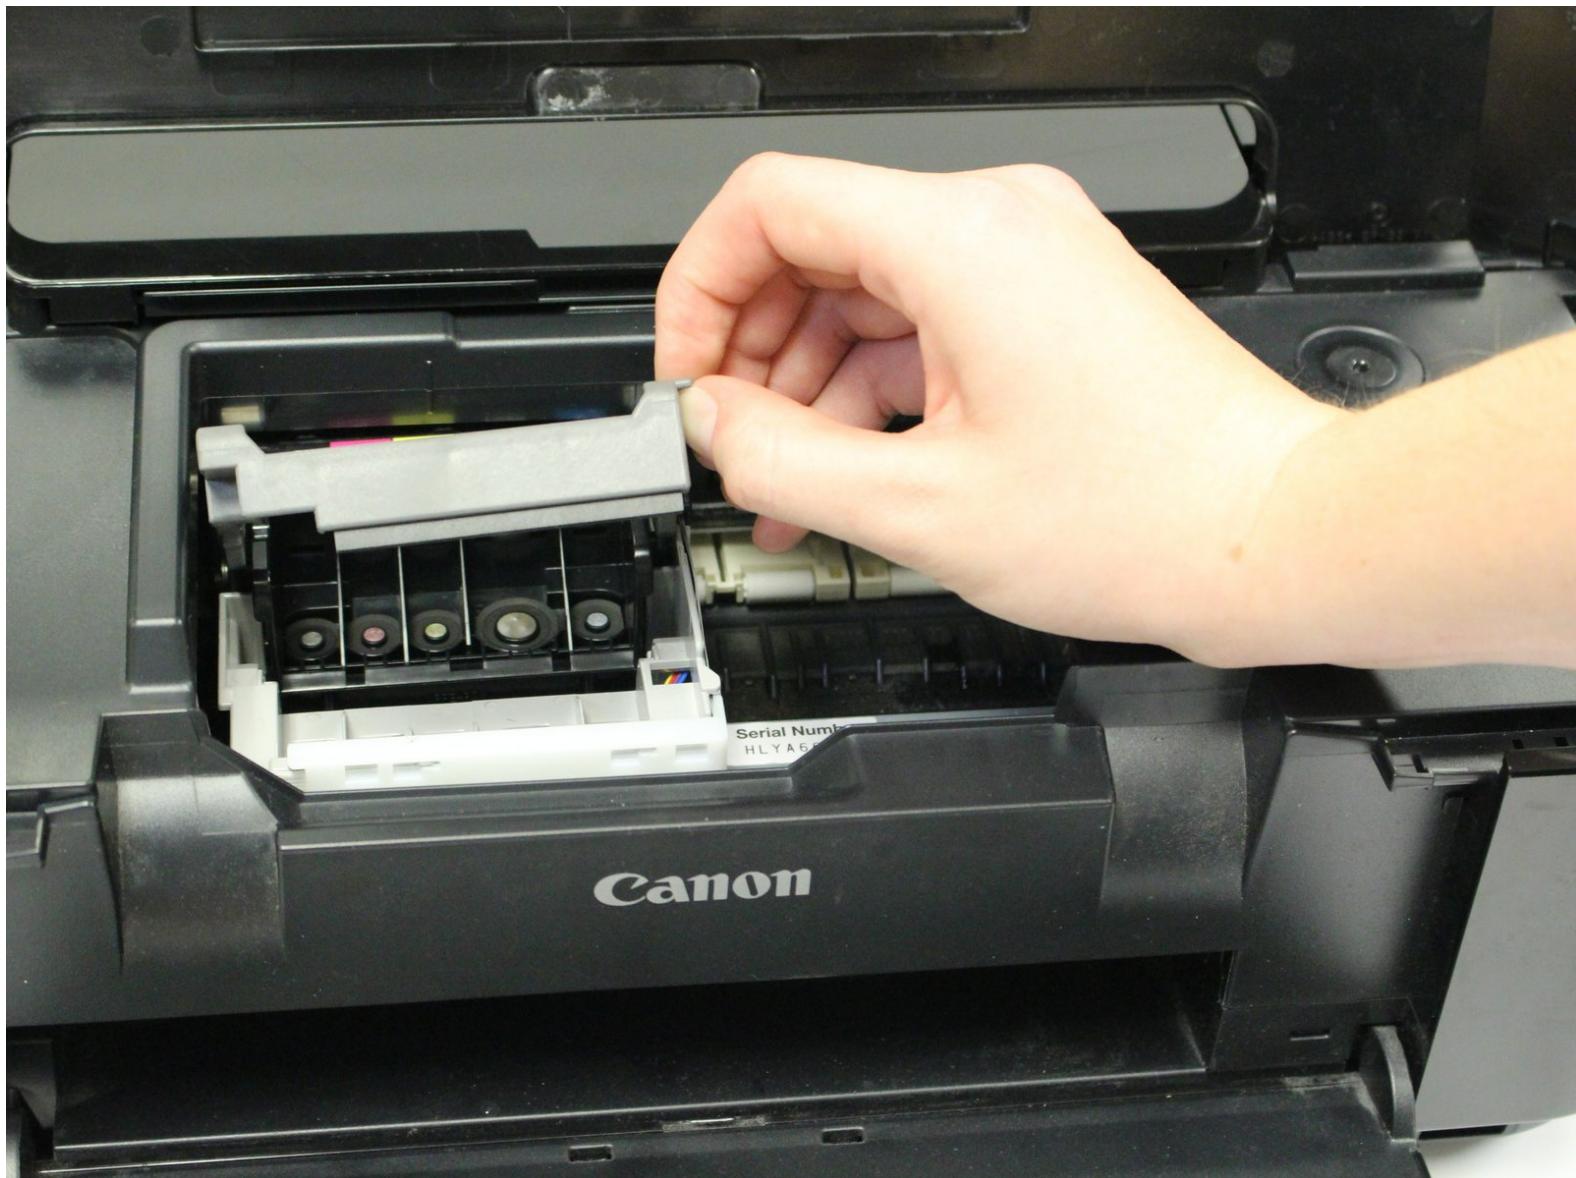

INTRODUCTION

If your printed documents or images are becoming distorted due to a dysfunctional printhead, use this guide to replace the printhead.

Step 1 — Ink Cartridges

- Press the power button to turn on the printer.

Step 2

- Pull down the front output tray cover.

Step 3

- Lift the printer lid.

Step 4

- Allow the belt, containing ink cartridges, to adjust and center so that the ink cartridges are visible.

Step 5

- Push in the white clip to release the ink cartridge from the printhead.

- Lift the ink cartridge from the printhead.

- Repeat this process for the remaining ink cartridges.

- You have successfully removed all ink cartridges.

Step 6 — Printhead

- After removing all ink cartridges, lift the printhead lock lever.

Step 7

- Pull up and lift out the black piece that previously held the ink cartridges. This is the printhead.
