## Step 1 — Battery

- The battery compartment is located on the bottom of the camera, below the user interface panel.

## Step 2

- The hatch covering the memory card will slide open towards the corner of the device.

## Step 3

- Once the hatch is slid so the end is overhanging the edge of the camera, you will be able to lift it open.

## Step 4

- Once open, you will see a small orange tab near the corner of the camera.

- Push this tab towards the front face of the device, and the battery will freely fall out from the hatch.

To reassemble your device, follow these instructions in reverse order.
