 **TOOLS:**

- **Phillips #00 Screwdriver (1)**

Step 1 — Battery Door Contact

- Turn the camera to the bottom surface and open the battery compartment.

Step 2

- Remove the two 2mm silver screws with a phillips #00 screwdriver.

Step 3

- Slide the battery contact away from the external piece from the battery compartment.

Step 4

- Remove the external piece from the camera.

Step 5

- Replace either the internal battery contact or external battery piece.

To reassemble your device, follow these instructions in reverse order.
