Step 1 — Ink Cassette

- Pull open the top of the cover on the right hand side of the printer, so that the Ink Cassette is exposed.
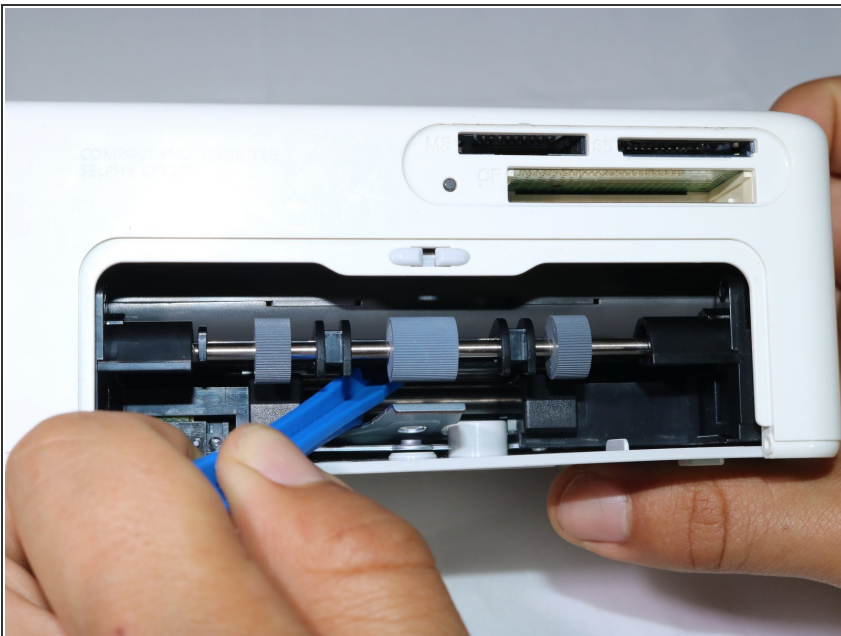

Step 2

- Lift the orange tab, which retains the Ink Cassette. If the Cassette is not jammed, it will eject automatically.

Step 3

- ⓘ If the Ink Cassette is not jammed, this is the last step

- Gently pry the Ink Cassette outward with the iFixit blue opening tool.

Step 4

- ⓘ Only complete these steps if the Ink Cassette does not come out on step 3.

- With the orange release tab still held back, gently pull on the Ink Cassette.

Step 5

- Reach into the printer with an iFixit blue opening tool and apply pressure to the black plastic plate under the Ink Cassette.

- Pull the Cassette out slowly and smoothly.

To reassemble your device, follow these instructions in reverse order.
