How to replace or remove the front case of this camera. (Front and Back case come off simultaneously)

Written By: Patrick Stalwick

INTRODUCTION

This guide shows how to remove the front case from the rest of the camera. You may have to do this to replace a damaged front cover or to access the inner parts of the camera.
🔧 TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Front Case

- Locate 12 screws. Four on the left, four on the right, and four on the bottom.

Step 2

- Using the #00 Phillips screwdriver, remove the four 3.66mm screws from the bottom outer case, and the eight 1.75mm screw from the sides of the case.

Step 3

- Separate the front case from the body of the camera.

To reassemble your device, follow these instructions in reverse order.
