

Casio G-Shock G302 Battery Replacement

This guide shows you the replacement of the battery on the Casio G-Shock G302.

Written By: Filmon Teamrat

INTRODUCTION

Use this guide to replace the battery on the Casio G-Shock G302.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)
- [Tweezers](#) (1)

PARTS:

- [CR2025 coin cell](#) (1)

Step 1 — Battery

- Remove the four Phillips #00 screws from the back of the watch.

Step 2

- Use a pair of tweezers to remove the metal cover by lifting it.
- ⚠ Be careful not to lose the rubber gasket underneath.

Step 3

- Remove the six Phillips #00 screws from the inside of the watch.

Step 4

- Use a pair of tweezers to remove the protective casing with the battery attached to it.

Step 5

- Use your finger to push the CR2025 Lithium battery out of its protective casing.

To reassemble your device, follow these instructions in reverse order.
