INTRODUCTION

A smashed iphone screen is enough to ruin anyone's day and there's nothing more irritating than continuing to use your phone with a cracked screen. Don't have hundreds of pounds to spend on a screen repair? Don't worry, a replacement screen doesn't have to break the bank, simply follow these tips to repair your iphone for the cheapest price.

Step 1 — Do It Yourself

- DIY is always the cheapest way to get the job done.

- All you need to repair your phone, is a replacement screen which can be bought from Amazon or Ebay.

- Make sure you check out this step by step guide or youtube videos so you can get your screen replacement right first time.

Step 2

- Too scared to replace a screen yourself? Getting it done professionally doesn't have to break the bank.

- Companies such as Refurb Phone and WeFix promise phone repairs in 48 hours, with free return delivery.

- It's so easy, just head over to My Favourite Voucher Codes and get great discounts on smartphone repair companies such as Refurb Phone.

Step 3 — Local Repair Stores

- Can't wait 48 hours for your phone to be repaired or don't want to send it off? Pop down to your local repair shop, even most small towns will have one.

- Repairs will cost less than if they were done by Apple and you are guaranteed to get your phone repaired faster than with any online service - so you can be your smartphone can be up and running within the day

Step 4 — Contact Apple

- If you are extremely fortunate and your iphone screen has smashed within the 60 day warranty.

- Apple will repair the damage at a lower cost.

- The benefit of this option is quality and longevity as it will be replaced by the actual manufacturer.

- However, Apple Care is still not a free service and can cost anywhere from $99 to $129 dependant on the nature of the damage.
