

# Cobra 29 LTD Classic Antenna Cable Replacement

This guide will show how to disconnect the antenna connector from the radio.

Written By: danperoni

## INTRODUCTION

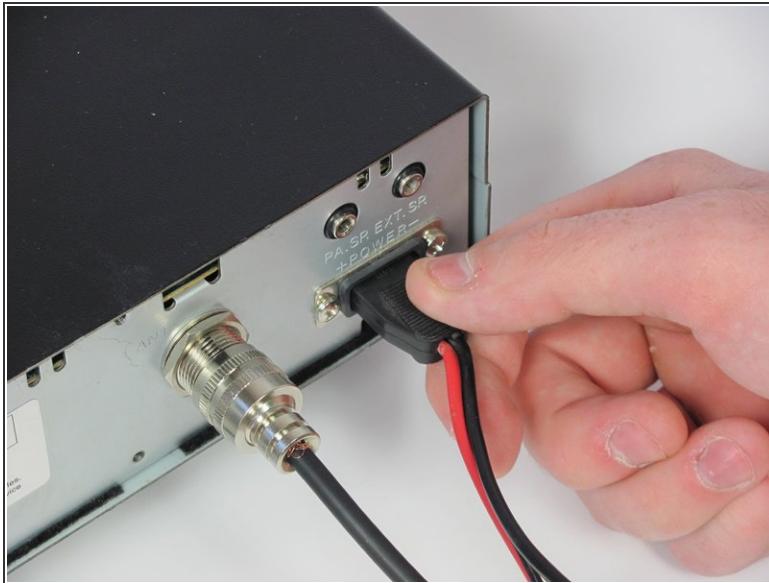

The antenna cable connects the antenna to the antenna connector.

## Step 1 — Power Cable

- Turn the power switch, the leftmost knob, counterclockwise to off.

## Step 2

- Turn the device around and firmly pull the power cable plug to remove it from the radio.

## Step 3 — Antenna Cable

- Unscrew the securing cap counterclockwise from the antenna connector.

## Step 4

- Gently pull the antenna cable to remove it from the back of the radio.

To reassemble your device, follow these instructions in reverse order.
