## Step 3

- Lift the black pull tab on the hard drive

- Lift the drive straight up out of the laptop

## Step 4

- Remove the four screws on the sides of the drive (two on each side)

- Remove the hard drive from the caddy

This document was generated on 2019-10-31 03:02:13 PM (MST).

## Step 5

- Pull the IDE connecter straight off the drive

⚠️ Be sure to pull the connecter off straight so as not to bend the hard drive IDE pins

To reassemble your device, follow these instructions in reverse order.
