Step 1 — Completely Revamped Macintosh Color Classic for its 25th Anniversary (Mac Mini inside)

- My Macintosh Color Classic running under MacOS 7.6 some days before it died

Step 2

- Machine completely emptied

Step 3

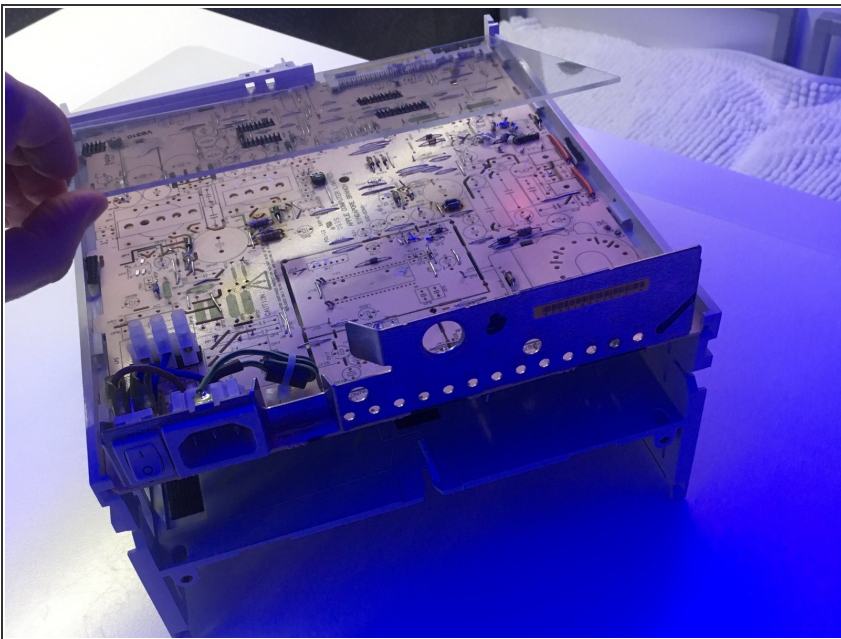

- all original components…

Step 4

- ...were replaced with the new ones

Step 5

- Testing the new HDMI 8" LCD screen.

Step 6

- The chassis and the power supply board were cleaned up and adapted for fitting the new components.

## Step 7

- Installing the new screen

Step 8

- Closing the back case

Step 9

- Sliding in and connecting the MacMini 2014

Step 10

- Closing the clip-in backplane
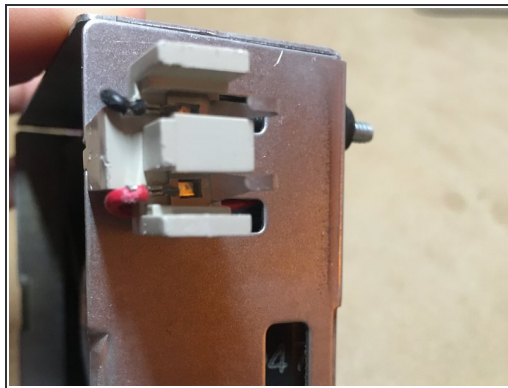

Step 11

- Plugging in the computer

Step 12

- Starting the computer
