

Conair Infiniti PRO Curling Iron Spring Replacement

Conair Infiniti PRO Curling Iron with 1 1/4" barrel (model number CD108WFN) spring replacement.

Written By: Jonathon Bruer

INTRODUCTION

This guide will demonstrate how to remove the curling iron spoon and replace the spring.

TOOLS:

- Phillips #2 Screwdriver (1)

PARTS:

- Replacement Spring (1)

Step 1 — Spring

- Remove the Philips #2 10 mm screws on both sides of the heat cover.

 Make sure device is unplugged and cool before attempting to replace parts.

Step 2

- Remove the plastic washers from both sides.

Step 3

- Loosen the spring's Philips #2 13 mm screw.

Step 4

- Remove the spring.

To reassemble your device, follow these instructions in reverse order.
