Step 7

- Carefully remove the battery compartment.

Step 8 — Circuit Boards

- Using a Phillips #00 Screwdriver, remove the two 5.5mm screws on the left and right edges of the circuit board.

This document was generated on 2019-09-20 07:58:43 AM (MST).

Step 9

- Using a pair of tweezers, carefully pry the metal loop on the left side of the battery compartment away from the case.
Step 10

- Pull the circuit boards out of the back cover.
  - (i) During reinstallation, firmly press the top of the circuit boards into the cover until you hear a click.

Step 11

- Gently pry the circuit boards apart.
  - (i) This must be done with the USB port facing up, as shown.

Step 12 — Lock/Unlock Switch

- Desolder the seven solder joints which hold the lock switch in place.

- Install the new lock/unlock switch.

To reassemble your device, follow these instructions in reverse order.
