

# CrystalView NB4-35788 Face Plate Replacement

This guide will demonstrate how to replace the face plate of the CrystalView NB4-35788.

Written By: Courtney Clark

## INTRODUCTION

Replace the face plate to restore the visual quality of your device.

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)

## Step 1 — Face Plate

- Remove each of the three screws located near the bottom of the screen using a Phillips #00 screwdriver.

## Step 2

- Remove each of the 4 screws located at the corners of the face plate.

## Step 3

- Carefully lift the entire perimeter of the face plate using a plastic spudger.

## Step 4

- Pull back the edge of the face plate to remove it.

To reassemble your device, follow these instructions in reverse order.
