

# Cuisinart DCC-1100 Display Replacement

A guide on how to replace the display on a Cuisinart DCC-1100 coffee maker.

Written By: Josh Harvey

## INTRODUCTION

This guide will show you how to replace the display and will require soldering.

### TOOLS:

- **Phillips #1 Screwdriver** (1)
- **Phillips #0 Screwdriver** (1)
- **Soldering Iron** (1)

## Step 1 — Display

- Unplug the coffee maker and remove the pot.

## Step 2

- Open the lid of the coffee pot.
- Remove the two 1.6mm Phillips #1 screws from inside of the lid.

## Step 3

- Remove the lid.

## Step 4

- Remove the two 1.3mm Phillips #0 screws from the display.

## Step 5

- Slide the display into the coffee maker so that way you can access the screws in the back.
- Remove the four 1mm Phillips #0 screws from the back of the display.

## Step 6

- Remove the back panel from the display.
- Remove the 1mm Phillips #0 screw from the motherboard.

## Step 7

- Desolder the display from the motherboard.

To reassemble your device, follow these instructions in reverse order.
