Step 1 — Battery

- (i) Save all of your work and turn off the laptop before beginning.

- Close the laptop and flip it so that the bottom side is facing up.

- Locate the battery compartment.

Step 2

- Pull the latches away from the battery compartment. The lid of the compartment should pop out of place.

Step 3

- Tilt the lid so that it leans away from the laptop and exposes the battery below.

- Remove the battery from the newly opened compartment.

Insert a new battery and close the compartment lid to complete.
