

DOPO 10.1 Tablet Buttons Replacement

This guide will show you how to successfully replace buttons so that you can adjust audio, and turn on/off device with ease.

Written By: Kaitlyn Hayes

INTRODUCTION

Be sure to order the proper buttons. To ensure a proper match, you can order from the manufacturer. Other than that, this replacement will be quick and easy.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Tweezers](#) (1)

PARTS:

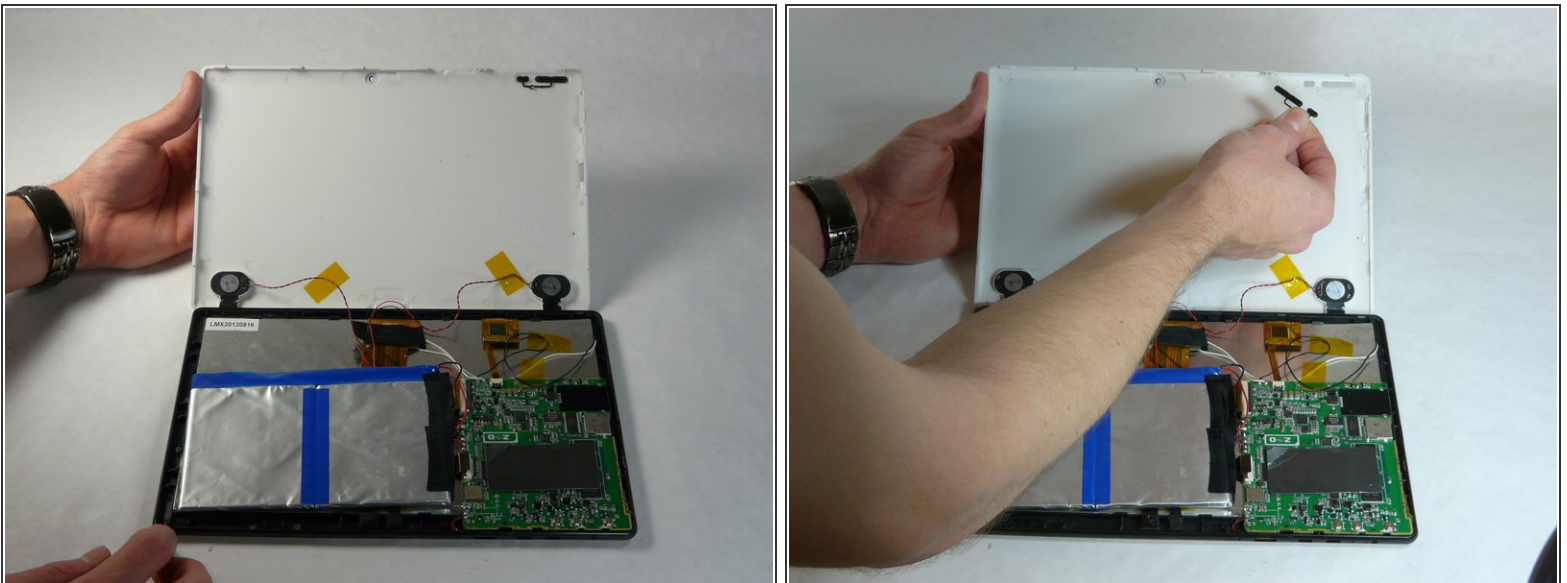

- [DOPO audio power button](#) (1)

Step 1 — Removing Back of tablet

- You will have to remove the back of the tablet. To do this take the plastic opening tool, and insert it into the side of the tablet and twist. This will pop off the side.
- Slowly pull up on the cover until it is completely off.

Step 2 — Remove Old Buttons

- Buttons will be located on the white back case. Apply small amount of pressure, and they should pop out.

To reassemble your device, follow these instructions in reverse order.
