

Dell Alienware 15 R2 Battery Replacement

Written By: Terrence15

INTRODUCTION

In this guide, we will show you how to remove and replace the Battery.

TOOLS:

- Pro Tech Toolkit (1)

Step 1 — Remove the Screw

⚠️ **WARNING:** Before working inside your computer, read the safety information that shipped with your computer and follow the steps in [Before Working Inside Your Computer](#). After working inside your computer, follow the instructions in [After Working Inside Your Computer](#).

⚠️ **CAUTION:** Solid-state drives are fragile. Exercise care when handling the hard drive.

⚠️ **CAUTION:** To avoid data loss, do not remove the solid-state drive while the computer is in sleep or on state.

- Remove the screw that secures the solid-state drive to the computer base.

Step 2 — Removing the Solid-State Drive

- Slide and remove the solid-state drive from the solid-state drive slot.

Step 3 — Sliding the Solid-State Drive

- Slide the **NEW** solid-state drive into the solid-state drive slot.

Step 4 — Align the Screw Hole

- Align the screw hole on the solid-state drive with the screw hole on the computer base.

Step 5 — Replace the Screw

- Replace the screw that secures the solid-state drive to the computer base.

Step 6 — Remove the Speaker Cable

⚠️ WARNING: Before working inside your computer, read the safety information that shipped with your computer and [Before Working Inside Your Computer](#). After working inside your computer, follow the instructions in [After Working Inside Your Computer](#).

- Remove the speaker cable from the routing guides on the battery.

Step 7 — Peel off the Cable

- Note the front AlienFX LED cable routing and peel off the cable from the battery.

Step 8 — Remove the Screws

- Remove the screws that secure the battery to the computer base.

Step 9 — Lifting the Battery

- Lift the battery off the computer base.

Step 10 — Align the Screw Holes

- Align the screw holes on the **NEW** battery with the screw holes on the computer base.

Step 11 — Adhere the AlienFX HD Cable

- Adhere the front AlienFX LED cable to the battery.

Step 12 — Route the Speaker Cable

- Route the speaker cable through the routing guides on the battery.

Step 13 — Replace the Screws

- Replace the screws that secure the battery to the computer base.

To reassemble your device, follow these instructions in reverse order.
