

# Dell Alienware M18x Display Assembly Replacement

Written By: Terrence15

## INTRODUCTION

In this guide, we will show you how to remove and replace the Display Assembly.

### TOOLS:

- [Phillips #0 Screwdriver \(1\)](#)

## Step 1 — Pull the Display Cable

**⚠** **WARNING:** Before working inside your computer, read the safety information that shipped with your computer.

**⚠** **CAUTION:** To avoid electrostatic discharge, ground yourself by using a wrist grounding strap or by periodically touching an unpainted metal surface (such as a connector on your computer).

**⚠** **CAUTION:** Only a certified service technician should perform repairs on your computer. Damage due to servicing that is not authorized by Dell is not covered by your warranty.

- Using the pull-tab, pull the display cable to disconnect the display cable from the connector on the system board.

## Step 2 — Disconnecting the Video-Card Connector Cable

- Disconnect and peel off the video-card connector cable from the connector on the system board.

## Step 3 — Disconnecting the LED-Logo Board Cable

- Disconnect the LED-logo board cable from the connector on the system board.

## Step 4 — Close the Display

- Close the display and turn the computer over.

## Step 5 — Removing the Cables

- Disconnect the antenna cables from the Mini-Card.
- Note the routing of the antenna cables, and then remove the cables from the routing guides on the computer base.

## Step 6 — Remove the Screws

- Remove the four screws that secure the display assembly on the computer base.

## Step 7 — Note the Routing

- Turn the computer over and open the display.
- Note the routing of the display cable and LED -logo board cable, and then remove the cables from the routing guides on the palm-rest assembly.

## Step 8 — Remove the Screws

- Remove the two screws, on the display hinges, that secure the display assembly to the computer base.

## Step 9 — Gently Slide the Antenna Cables

- Gently slide out the antenna cables through the slot on the computer base.

## Step 10 — Moving the Display

- Move the display to a perpendicular position to the computer base, and then lift the display assembly off the computer.

## Step 11 — Placing the Display Assembly

- Place the **NEW** display assembly in position and replace the two screws, on the display hinges, that secure the display assembly to the computer base

## Step 12 — Routing the Display Cable

- Route the display cable and LED - logo board cable through the routing guides on the palm-rest assembly.

## Step 13 — Connecting the Display Cable

- Connect the display cable, video-card connector cable, and LED-logo board cable to the respective connectors on the system board.

## Step 14 — Sliding the Cables

- Slide the Mini-Card antenna cables through the slot on the computer base.

## Step 15 — Close the Display

- Close the display and turn the computer over.

To reassemble your device, follow these instructions in reverse order.
