

# Dell Inspiron 11z 1110 Display Assembly Replacement

Written By: Terrence15

## INTRODUCTION

In this guide, we will show you how to remove and replace the Display Assembly.

### TOOLS:

- [Phillips #0 Screwdriver \(1\)](#)

## Step 1 — Dislodge the Mini-Card Antenna Cables

**⚠️** **WARNING:** Before working inside your computer, read the safety information that shipped with your computer. Follow the procedures in [Before You Begin](#).

**⚠️** **CAUTION:** To avoid electrostatic discharge, ground yourself by using a wrist grounding strap or by periodically touching an unpainted metal surface (such as a connector on your computer).

- Make note of the cable routing and carefully dislodge the Mini-Card antenna cables from the routing guides.

## Step 2 — Disconnecting the Display Cable

- Disconnect the display cable and the camera cable from the system board connectors.

## Step 3 — Remove the Screws

- Remove the two screws (one on each side) that secure the display assembly to the computer base.

## Step 4 — Lifting the Display Assembly

- Lift the display assembly off the computer.

## Step 5 — Placing the Display Assembly

- Place the **NEW** display assembly in position and replace the two screws (one on each side) that secure the display assembly to the computer base.

## Step 6 — Routing the Mini-Card Antenna Cables

- Route the Mini-Card antenna cables through the routing guides.

To reassemble your device, follow these instructions in reverse order.
