

Dell Inspiron 1200 Hard Drive Replacement

Written By: Terrence15

INTRODUCTION

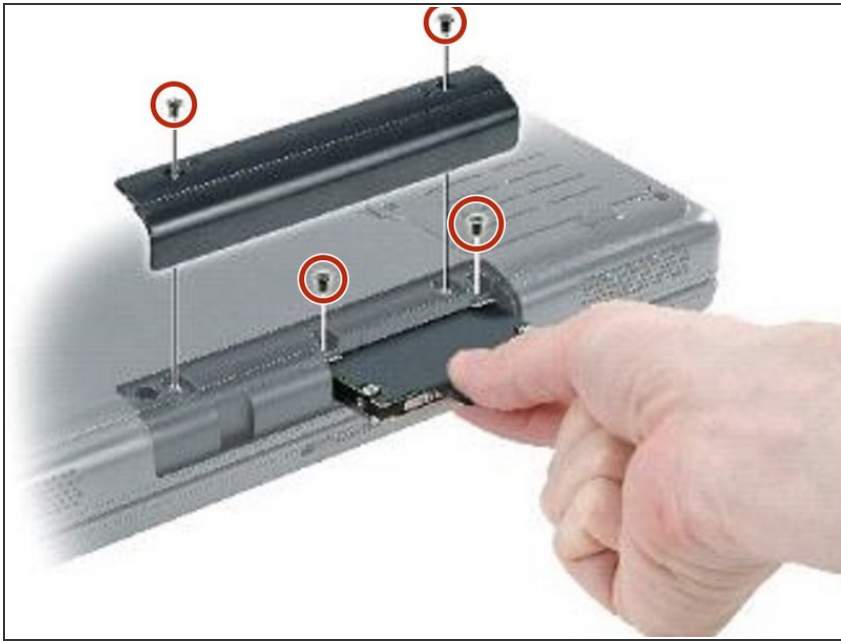

In this guide, we will show you how to remove the Hard Drive.

TOOLS:

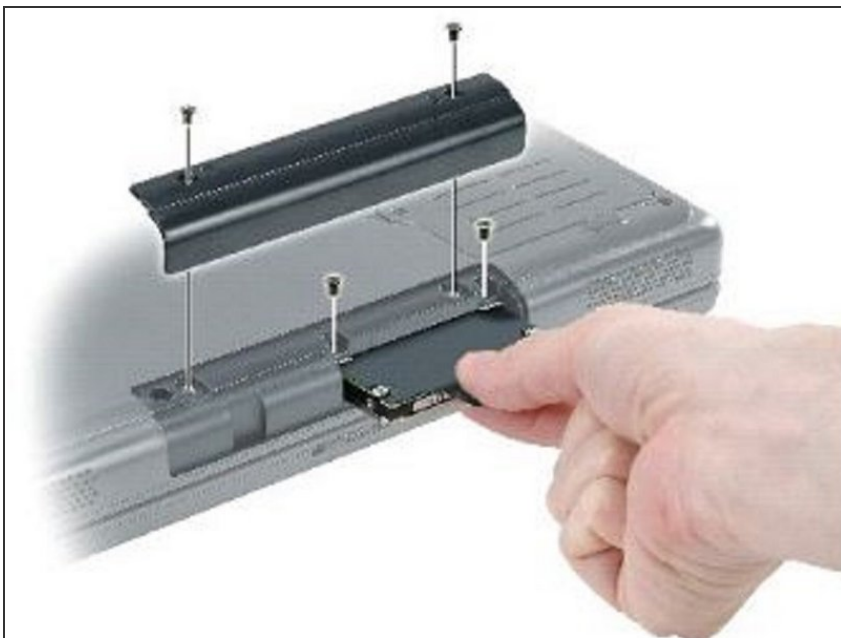

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Removing the Cover Screws

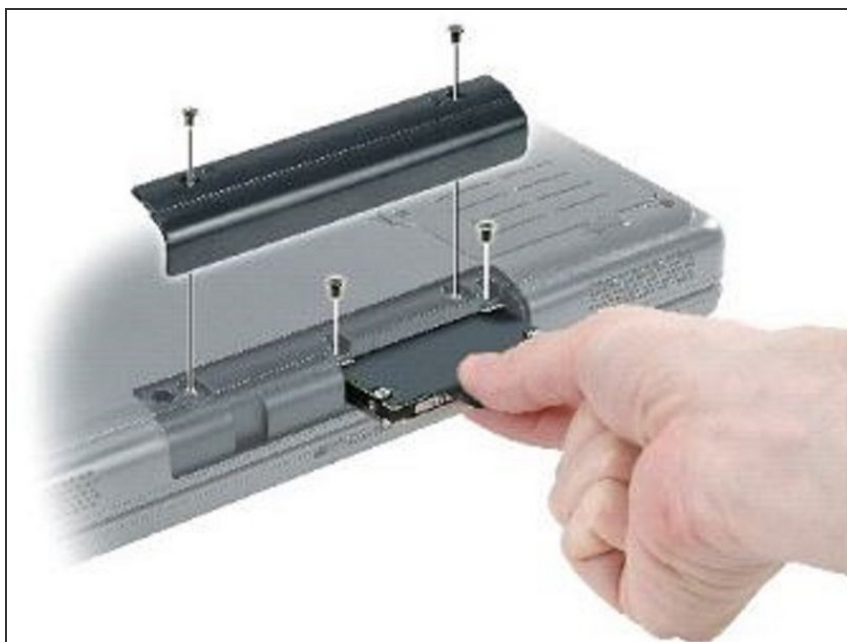

- CAUTION:** Before working inside your computer, follow the procedures in ["Before You Begin."](#)
- Turn the computer over, and remove the hard drive cover screws.

Step 2 — Lifting the Hard Drive Cover

- Lift the hard drive cover and remove the screws used to secure the hard drive.

Step 3 — Removing the Hard Drive

- A black plastic strap is attached to the hard drive to assist in removal. Grasp the strap and pull straight out to remove the hard drive from computer.

To reassemble your device, follow these instructions in reverse order.
