

# Dell Inspiron 13-5378 Display Assembly Replacement

Written By: Terrence15

## INTRODUCTION

In this guide, we will show you how to remove and replace the Display Assembly.

### TOOLS:

- [Phillips #0 Screwdriver \(1\)](#)

## Step 1 — Peeling the Tape

**⚠ WARNING:** Before working inside your computer, read the safety information that shipped with your computer and follow the steps in [Before Working Inside Your Computer](#). After working inside your computer, follow the instructions in [After Working Inside Your Computer](#).

- Peel off the pieces of tape that secure the display cable and touch-screen board-cable to the system board.

## Step 2 — Open the Latches

- Open the latches to disconnect the display cable and the touch-screen board-cable from the system board.

## Step 3 — Open the Display

- Turn the computer over and open the display as far as possible.

## Step 4 — Placing the Computer

 CAUTION: Place the computer on a soft and clean surface to avoid scratching the display.

- Place the computer face down on a flat surface.

## Step 5 — Remove the Screws

- Remove the screws that secure the display assembly to the palm-rest assembly.

## Step 6 — Lifting the Display Assembly

- Lift the display assembly off the palm-rest assembly.

## Step 7 — Placing the Display Assembly

- Place the **NEW** display assembly face down on the palm-rest assembly.

## Step 8 — Align the Screw Holes

- Align the screw holes on the display hinges with the screw holes on the palm-rest assembly.

## Step 9 — Close the Display

- Close the display and turn the computer over.

## Step 10 — Sliding the Display Cable

- Slide the display cable and the touch-screen board-cable into their respective connectors on the system board and close the latches to secure the cables.

## Step 11 — Adhering the Pieces

- Adhere the pieces of tape that secure the display cable and the touch-screen board-cable to their respective connectors on the system board.

To reassemble your device, follow these instructions in reverse order.
