Step 5 — Fan

- Remove the two screws holding the cover for the fan.
Step 6

- Unplug the connector holding the fan's wires.

- Remove the fan from the laptop.

Step 7 — Network Card

- Use the Phillips #00 screwdriver to remove the single screw holding in the network card.

- Remove the network card from the laptop.

Step 8 — Daughterboard

- Use the Phillips #00 screwdriver to remove the two 1mm screws holding in the daughterboard.

- Remove the metal piece holding in the daughterboard.

- Disconnect the two cable connectors from the daughterboard.

- If the cables are stuck, gently wiggle them until they disconnect.

Step 9
- Remove the daughterboard.
Step 10 — Motherboard
- Remove the seven 2mm screws securing the motherboard.

Step 11

- Release the IO Board Cable.

- Release the Touchpad cable.

- Release the keyboard back-light cable.

- Release the keyboard cable.

- Release the eDP cable.

- Release the dc-in cable.

- Release the cable for the LED charging indicator by gently pulling up on the connector.

Step 12

● Gently lift up on the motherboard to remove it.

To reassemble your device, follow these instructions in reverse order.
