

# Dell Inspiron 13-7373 Network Card Replacement

How to replace a Dell Inspiron 13-7373 network card.

Written By: Kristen Gismondi

 **TOOLS:**

- [Phillips #00 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)
- [Phillips #0 Screwdriver](#) (1)

## Step 1 — Back Cover

- Remove nine 7.5mm Phillips #00 screws from the bottom of the laptop.
- Use an opening tool to remove the bottom half of the case from the laptop.

## Step 2 — Network Card

- Use the Phillips #00 screwdriver to remove the single screw holding in the network card.
- Remove the network card from the laptop.

To reassemble your device, follow these instructions in reverse order.
