INTRODUCTION

How To Remove And Replace The Memory Module
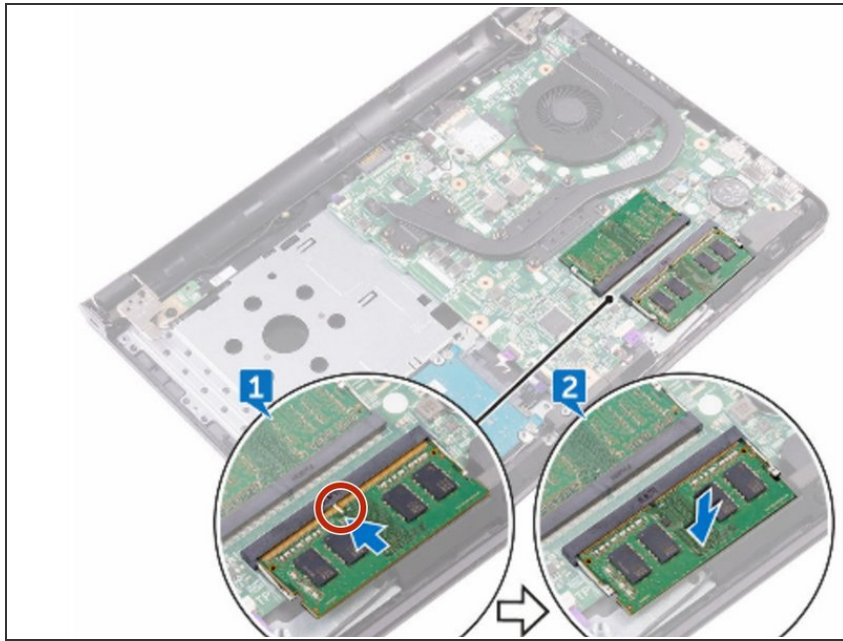

Step 1 — Useing Your Fingertips

- Use your fingertips to carefully spread apart the securing-clips on each end of the memory-module slot until the memory module pops up.

## Step 2 — Removing The Memory Module

- Remove the memory module from the memory-module slot.

Step 3 — Aligning The Notch

- Align the notch on the memory module with the tab on the memory-module slot.

Step 4 — Sliding The New Memory Module

- Slide the **NEW** memory module firmly into the slot at an angle and press the memory module down until it clicks into place.

To reassemble your device, follow these instructions in reverse order.
