## INTRODUCTION

Over time, laptop batteries will stop holding their charge and eventually die out. This guide will show how to remove and replace the battery of the device.

## Step 1 — Battery

⚠ Be sure the laptop is shut off and unplugged from the wall outlet.

- Slide each latch out to unlock the battery.

## Step 2

- Use your thumb to lift the battery out of its slot by lifting the bottom edge of the battery.

To reassemble your device, follow these instructions in reverse order.
