

Dell Inspiron 17R-5737 Optical Drive Replacement

The optical drive must be removed before removing the palmrest.

Written By: Mack Chabot

TOOLS:

- [JIS #00 Screwdriver](#) (1)
-

Step 1 — Battery

⚠ Make sure the laptop is off before attempting to remove the battery.

- Flip over your laptop so that the battery faces you.

Step 2

- Slide each latch away from the battery to unlock it.

Step 3

- Lift the battery upwards to remove it.
- ⓘ Continue holding the latches when removing the battery.

Step 4 — Optical Drive

- Remove one 4.8mm screw with a JIS #00 screwdriver.
- Remove the optical drive.

To reassemble your device, follow these instructions in reverse order.
