

Dell Inspiron 5100 PP07L Hard Drive Replacement

If you want to replace your hard drive for a larger drive or if it's corrupted.

Written By: May Chauvin

INTRODUCTION

You will learn how to remove the hard drive.

TOOLS:

- [Phillips #1 Screwdriver \(1\)](#)

PARTS:

- [1 TB SSD / Upgrade Bundle \(1\)](#)
- [250 GB SSD / Upgrade Bundle \(1\)](#)
- [500 GB SSD / Upgrade Bundle \(1\)](#)
- [2 TB SSD / Upgrade Bundle \(1\)](#)

Step 1 — Hard Drive

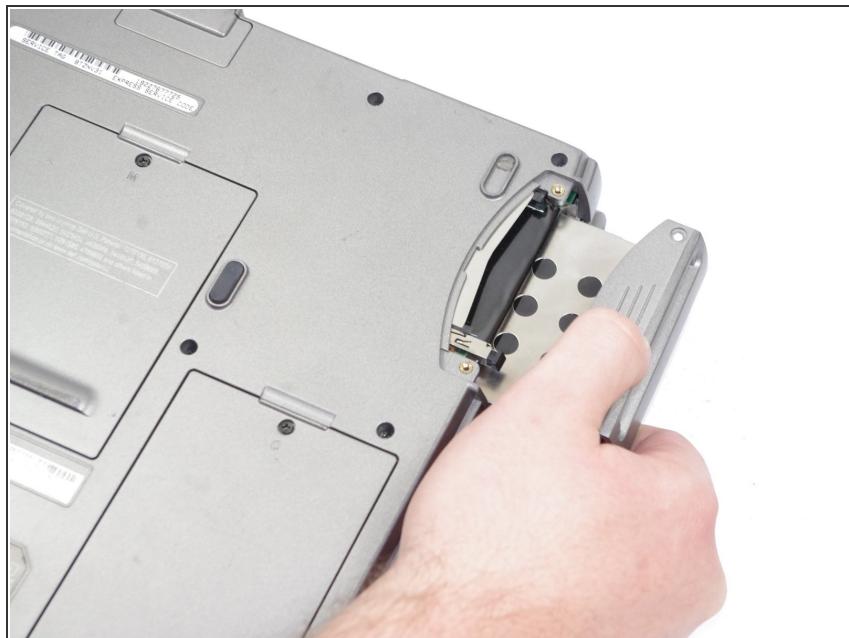

- With the lid closed, place the laptop upside-down on a flat surface.

Step 2

- Remove the two 5.8mm screws securing the hard drive bay.
- If the computer was right-side-up and rotated for use, the bay would be found in the rear left corner.

Step 3

- Grasp the plastic bay handle and slide outwards to remove.

To reassemble your device, follow these instructions in reverse order.
