

# Dell Precision M6600 Hard Drive Replacement

These guidelines will help you locate and replace your hard drive.

Written By: Kaley Lindsay

 **TOOLS:**

- [Fingers](#) (1)
- [Phillips #00 Screwdriver](#) (1)

## Step 1 — Battery

- Slide the lock key to unlock the battery. Then you can lift the battery from its holder.

## Step 2 — Remove Bottom Cover

- Using Phillips screwdriver, remove 2 screws holding case.
- Slide case towards back of laptop then lift off to remove.

## Step 3 — Remove the Hard Drive

- Using a Phillips Screwdriver, remove the 4 screws that hold the hard drive in place.
- Using a Phillips #00 take out the 1.5mm screw then slide to unlock the SSD holder.

## Step 4

- When the lock was slid, a metal holder popped out and that is where the SSD is hidden.

To reassemble your device, follow these instructions in reverse order.
