Dell Studio 1737 Back Panel Replacement
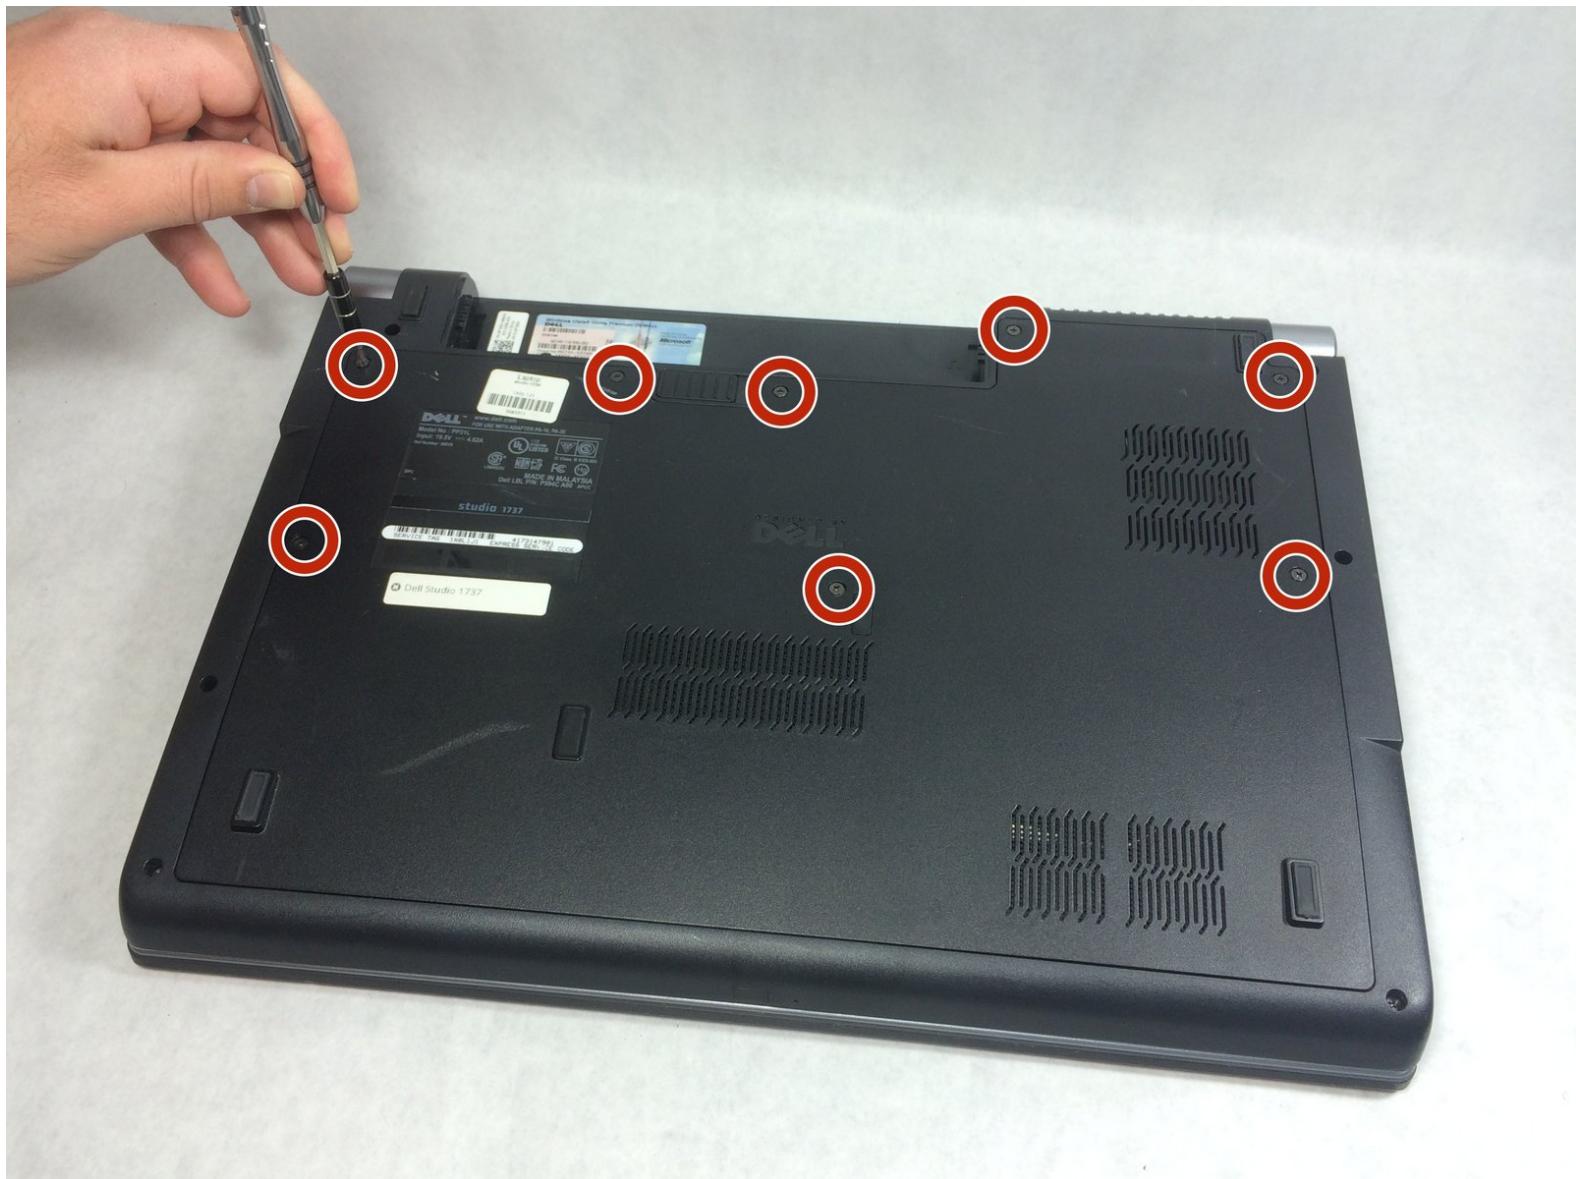

Written By: Joseph Jacavone

🔧 TOOLS:

- [Mako Driver Kit - 64 Precision Bits](#) (1)
- [iFixit Opening Tools](#) (1)

Step 1 — Back Panel

- Unscrew the 8 Phillips head screws marked in the photo.

- (i) Even when the screws are fully detached, they will not come out of the panel.

- Use a plastic opening tool to pry the panel away from the laptop body.

- Lift the panel up and away.

To reassemble your device, follow these instructions in reverse order.
