

Dell Vostro 1014 Memory Module Replacement

Written By: Johnathan Hammond

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Battery

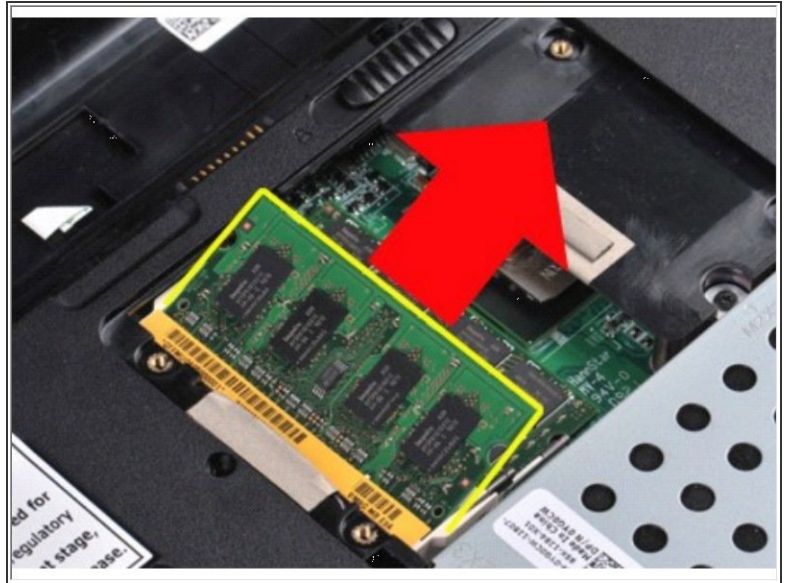

- Slide the battery latch apart to the unlock position.
- Lift the battery from the computer.

Step 2 — Access Panel

- Remove the six screws that secure the access panel to the computer.
- Remove the access panel from the computer.

Step 3 — Memory Module

- Use your fingertips to carefully spread apart the securing clips on each end of the memory module connector until the module pops up.
- Slide the memory module from its socket and remove the module from the computer.

To reassemble your device, follow these instructions in reverse order.
