

Dell Vostro 1510 Memory Module Replacement

Written By: Johnathan Hammond

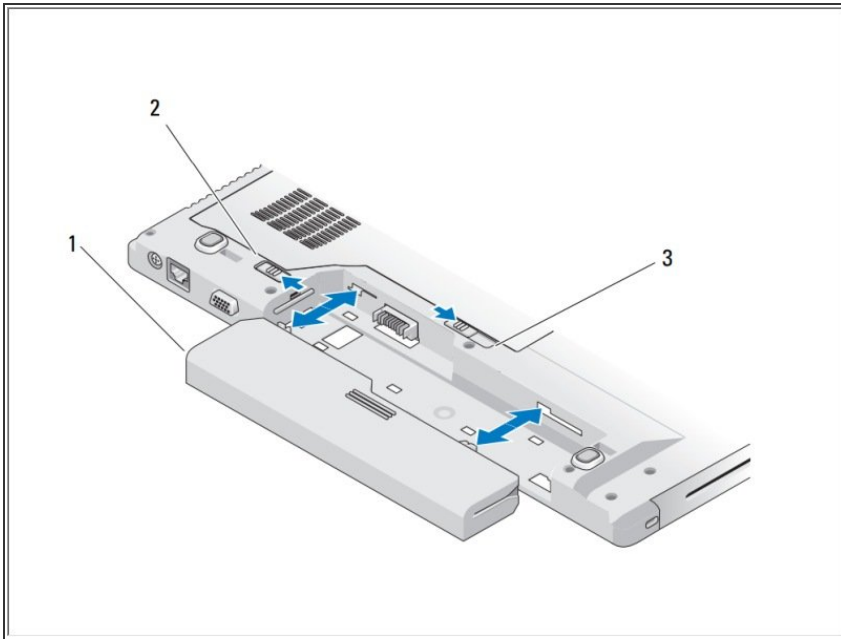

TOOLS:

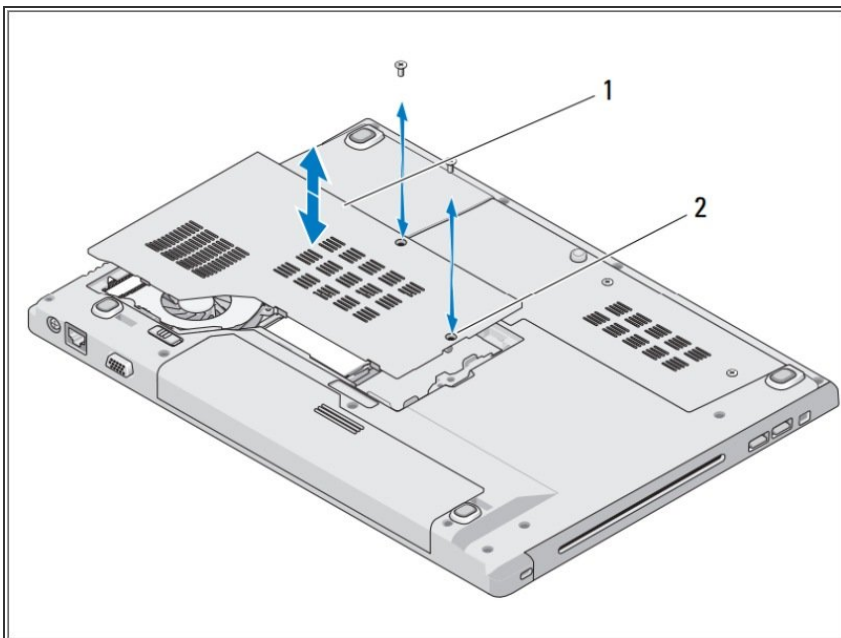

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Battery

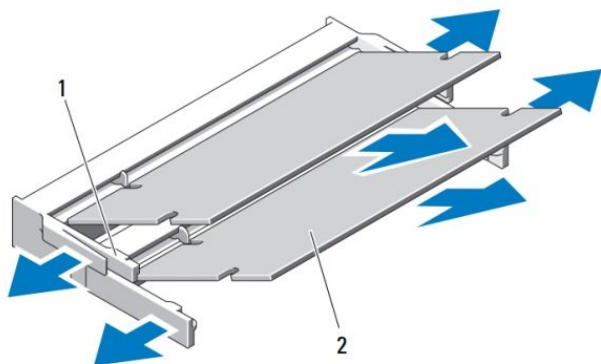

- Slide the battery lock to the open position.{2}
- Slide the battery release latch to the open position. (You may need to hold the battery release latch in the open position while removing the battery.) {3}
- Slide the battery out of the battery bay.{1}

Step 2 — Memory Module

- Remove the two screws that secure the memory cover, then remove the cover and set it aside.

Step 3

i NOTICE: To prevent damage to the memory module connector, do not use tools to spread the memory module securing clips.

- Use your fingertips to carefully spread apart the securing clips on each end of the memory module connector until the memory module pops up.
- Remove the memory module from the connector.

To reassemble your device, follow these instructions in reverse order.
