

# Dell XPS 13 L321X Mouse pad Replacement

How to replace the track pad. It is recommended to check the troubleshooting page before replacing.

Written By: Ahmad EL Herbawi

## INTRODUCTION

Trackpad not responsive or not working at all? Replace it (only screwdrivers required).

### TOOLS:

- [T4 Torx Screwdriver](#) (1)
- [Phillips #00 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

## Step 1 — Track Pad

- Remove ten 3mm screws from the back cover with a **T4** screwdriver.

## Step 2

- Disconnect the ribbon cable with a plastic iFixit opening tool, by lifting up the black clip and by pulling the white ribbon off.
- Pull aside the ribbon cable.

## Step 3

- With a plastic iFixit opening tool, insert it in between and remove the battery cable.

## Step 4

- Use a **PH00** size screwdriver to remove the 8 screws that secure the battery.
- Six 3mm screws.
- Two 5mm screws.
- Lift the battery out.

## Step 5

- Disconnect the ribbon cable with a plastic iFixit opening tool by lifting up the black clip and by pulling the white ribbon.
- Place aside.

## Step 6

- Remove four 2mm screws with a **PH00** screwdriver.
- Remove the mouse pad.
