INTRODUCTION

Changing the battery is pretty easy it only requires removing 6 screws and unplugging the battery. Be careful to not knick the wires to the right of the battery, if you keep this in mind this replacement will be quick and easy.

⚙ TOOLS:

- Phillips #0 Screwdriver (1)
- T5 Torx Screwdriver (1)

Step 1 — Back Panel
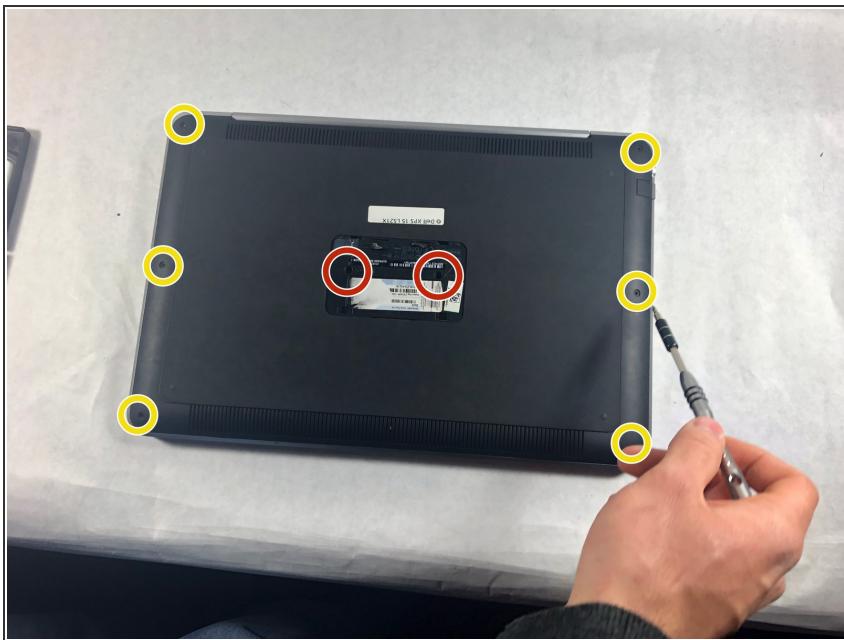

- Find and remove the two .3cm torx head screws using a T5 screwdriver.

- Find and remove the six Phillips head .3cm screws using a Phillips #0 screwdriver.

Step 2
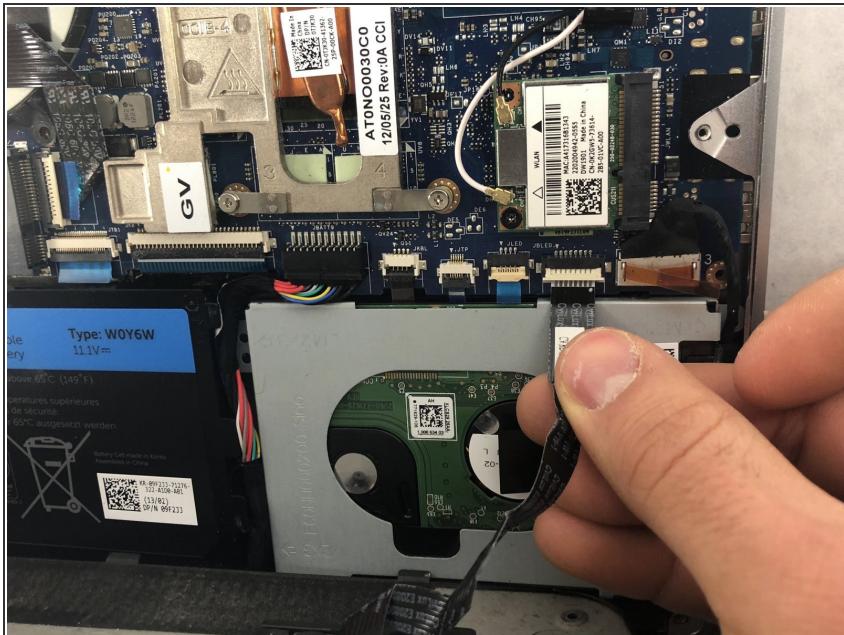

- Unplug the battery indicator.
