Deroute Kindle Fire Speaker Cable

PREREQ

Written By: Phillip Takahashi
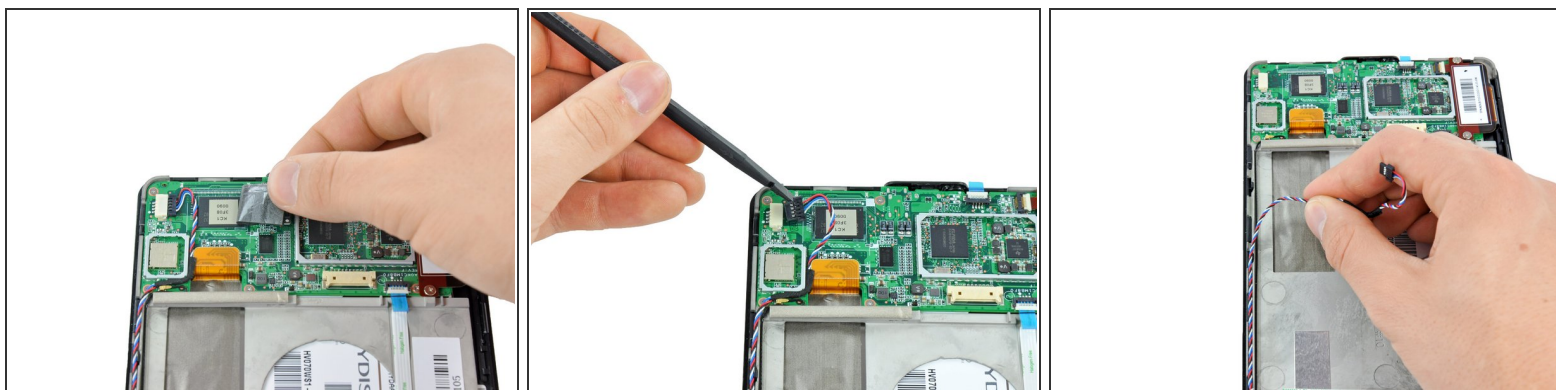

🔧 TOOLS:
- Spudger (1)

www.iFixit.com

Step 1 — Speaker Cable

- Peel the tape on the upper-left IC that is securing the speaker cable.

- Use the flat end of a spudger to push the speaker connector out of its socket.

- Deroute the speaker cable so that it will not interfere with the motherboard.

To reassemble your device, follow these instructions in reverse order.
