Disassembling Apple AirPort Extreme Model A1034 Outer Case

In this guide you will be shown how to remove the outer case on the Apple Airport Extreme Model A1034.

Written By: Travis Go

INTRODUCTION

This is a step-by-step guide to remove the outer case on the AirPort Extreme Model A1034.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)
- T7 Torx Screwdriver (1)

This document was generated on 2019-10-12 07:33:51 PM (MST).
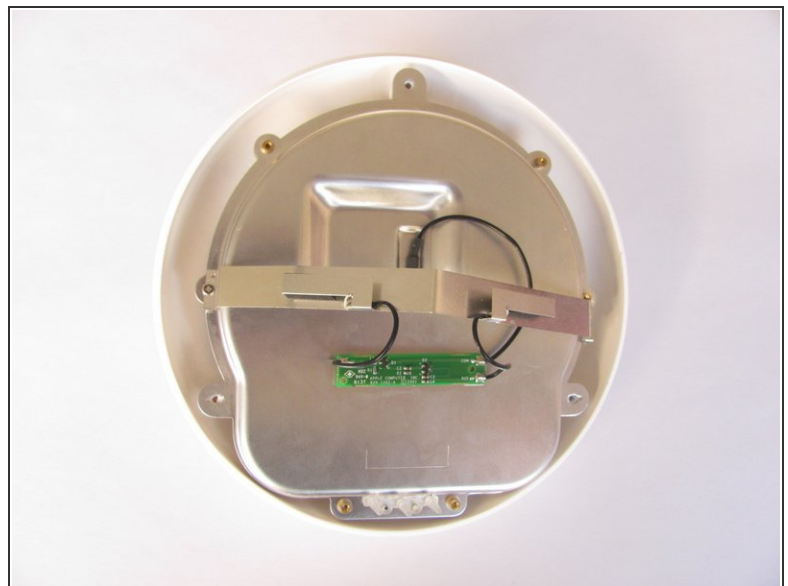

Step 1 — Outer Case

● Remove the three 14.3mm T7 Torx screws from the bottom of AirPort.

Step 2

- Remove the 5.1mm Phillips screw from the bottom of the AirPort. This screw is located under the identification sticker. You will have to remove the sticker or make a hole to remove it.

Step 3

- Lift the bottom and top casing straight apart and then lift metal casing straight up from the bottom plastic casing.

This document was generated on 2019-10-12 07:33:51 PM (MST).

Step 4

- Unplug the black connector on the top of the metal casing by gently pulling horizontally.

To reassemble your device, follow these instructions in reverse order.
