Disassembling Logitech MBJ58 Mouse Scroll wheel from mount

You will part the scroll wheel from the mount.

Written By: Maximilian Betkowski

INTRODUCTION

You will learn how to remove the scroll wheel from mount.

TOOLS:

- Phillips #1 Screwdriver (1)

This document was generated on 2020-04-13 05:06:09 PM (MST).
Step 1 — Top cover

- Hold the mouse so that the bottom is facing up.

- Remove the Phillips #1 screw from the bottom half of the mouse.

Step 2

- Place the mouse so that the bottom is resting against a hard surface.

- Gently lift the top cover of the mouse and remove it.

Step 3 — Removing the Logitech MBJ58 Mouse Scroll Wheel

- Locate the scroll wheel on the mouse.

- Grab the scroll wheel with your thumb and index finger.

- Gently lift up, to remove the scroll wheel from the mouse.

Step 4 — Support Spring

- Locate the spring on the scroll wheel, and carefully remove the spring.

Step 5 — Attaching the New Spring

- Place the replacement spring on the correct side of the wheel (shown in the images) with the prongs pointing down.

Step 6 — Disassembling Logitech MBJ58 Mouse Scroll wheel from mount

- Use the images to locate where the resistance spring is.

  ⚠ This spring will easily fall off.

- Grab the scroll wheel and its mount and gently pull them apart.

To reassemble your device, follow these instructions in reverse order.
