Dreamcast clock always having to be reset? Time to replace your CMOS

Written By: Dark Sakul

## INTRODUCTION

When a Dreamcast ask for time and date every time you power on your system, your CMOS battery is dead. This guide shows how to replace the CMOS battery.

### TOOLS:

- [Phillips #2 Screwdriver](#) (1)
- [Soldering Workstation](#) (1)
- [Safety Glasses](#) (1)
- [Digital Multimeter](#) (1)

### PARTS:

- [matching battery holder](#) (1)
- [wire, 22 to 26 gauge](#) (1)
- [Electric tape or electric shrink wrap](#) (1)
- [double-sided foam mounting tape](#) (1)
- [CR 2016 3V Lithium Batteries](#) (1)

## Step 1 — Top Cover

- **Locate and remove all four black 12mm Phillips #02 screws** from the underside of the console.
- ⓘ **Note:** Remove the expansion bay to locate the fourth screw

## Step 2

- ⚠ **Internal components can be loose.** Be careful that they do not fall out when removing the cover.
- Turn the console right side up.
- **Remove the top cover** by gently lifting the upper portion of the console.

### Step 3 — Controller Port

⚠ Be gentle with the white controller cable as it can be a bit fragile.

- **Disconnect the white controller cable** by gently pulling the cable while wiggling it back and forth until it detaches from the controller board.

### Step 4

- **Remove the four 14mm Philips #02 screws** located on the controller board.

## Step 5

- **Disconnect the white fan header** from the controller port.

## Step 6

- **Remove the controller board** by lifting it up from the controller port.

## Step 7 — CMOS Battery

- Note where the positive and negative terminals go.
- Desolder the old CMOS battery from the controller board.

## Step 8

- Solder the replacement battery holder to two electrical wires.
- Solder the opposite ends of the wires to the controller board. Make sure to match corresponding points on the board with where the previous positive and negative terminals were.

## Step 9

- Reinsert the controller board.
- Attach the battery holder inside with a self adhesive substance, such as double sided foam tape.
- Insert the battery into the battery holder.
- Reverse the disassembly directions to reassemble your Dreamcast.
- Once your Dreamcast is reassembled, go ahead and connect the Dreamcast to your TV or monitor and power, and reset the clock.

To reassemble your device, follow these instructions in reverse order.
