Step 3

- Use the spudger to take apart the device by insterting it as shown in the picture and twisting it. This should be done all around the device to ensure the two parts split correctly.
⚠ The keys/buttons highlighted in the second picture fall out easily so be careful. Keep device faced down in order to keep them from falling.
Step 4 — Screen

- Further remove the 2 screws (1.2mm X 4mm Phillips #0 head).

Step 5

- Detach the ribbon cable.

Step 6

- Remove the screen.

To reassemble your device, follow these instructions in reverse order.
