-

Step 1 — Sole Plate

- Lay the vacuum on its side to allow for easy access to the bottom of the cleaner head.
- Unlock the sole plate by using [a quarter](#) or other flat tool to turn the three plastic bolts counter-clockwise, as indicated on the sole plate.
- ⚠ The plastic fasteners can be damaged when using a metal tool to turn them.

Step 2

- Gently pull off the sole plate

To reassemble your device, follow these instructions in reverse order.
