

# Etekcity Lasergrip 1080 Screen Replacement

The screen may be damaged and need to be replaced. You can remove it and replace it.

Written By: Carlos Pineda

## INTRODUCTION

This guide will show you how to replace a faulty screen. This will use a screwdriver and a plastic opening tool. There are no hazards involved with this guide.

### TOOLS:

- **Phillips #1 Screwdriver** (1)
- **Phillips #00 Screwdriver** (1)
- **Phillips #0 Screwdriver** (1)
- **iFixit Opening Tools** (1)

## Step 1 — Battery

- Pull the battery cover away from the handle by gripping near the thumb groove.

## Step 2

- Gently pull the battery out of the handle.

**⚠** Excessive force could damage wires.

## Step 3

- Disconnect the battery by pulling the connector away from it.
  - Positive first
  - Negative second

**⚠** When replacing the battery, this order is reversed.

## Step 4 — Buttons

- Remove the battery cover from the device by pulling it straight out.

## Step 5

- Using the plastic opening tool remove the front and rear yellow covers.

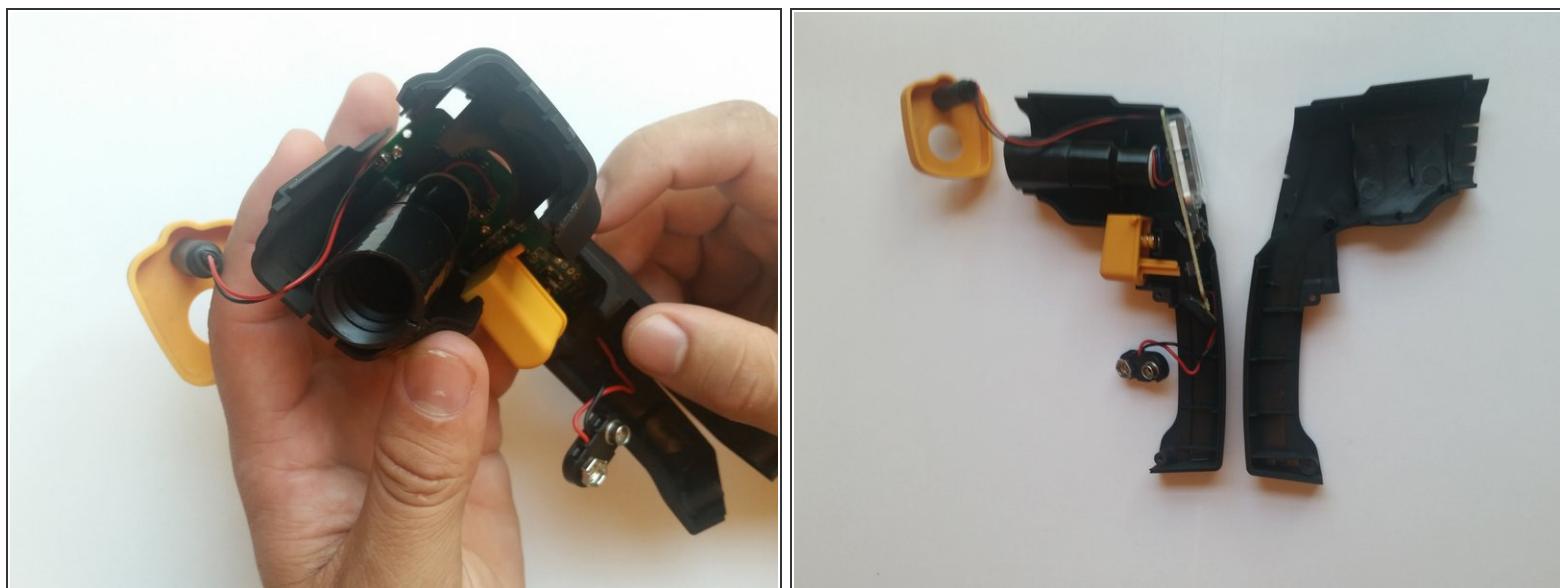

**⚠** When removing the back cover, be careful not to lose the buttons as they are not connected.

## Step 6

- Remove the two 3.1 mm Phillips #0 screws.

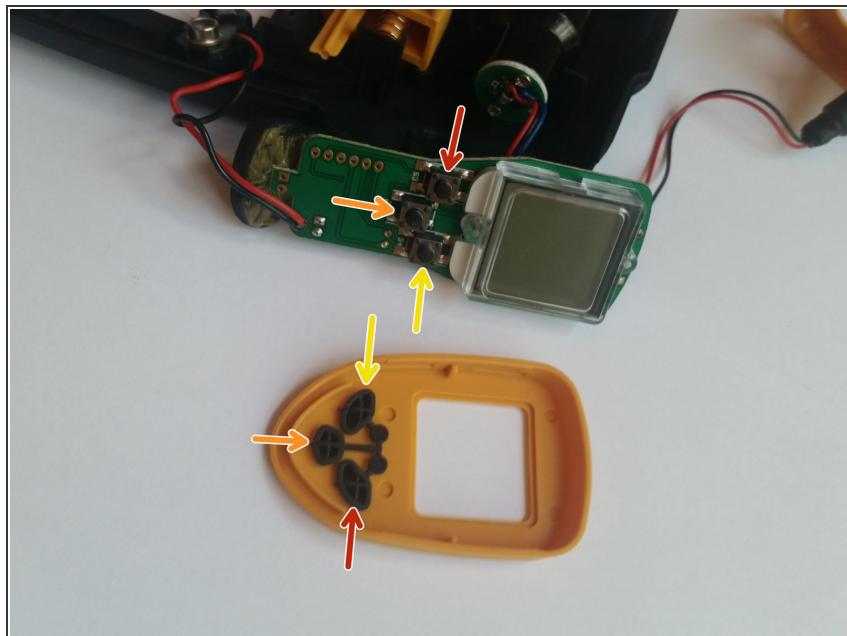

## Step 7

- Pull the two halves apart.

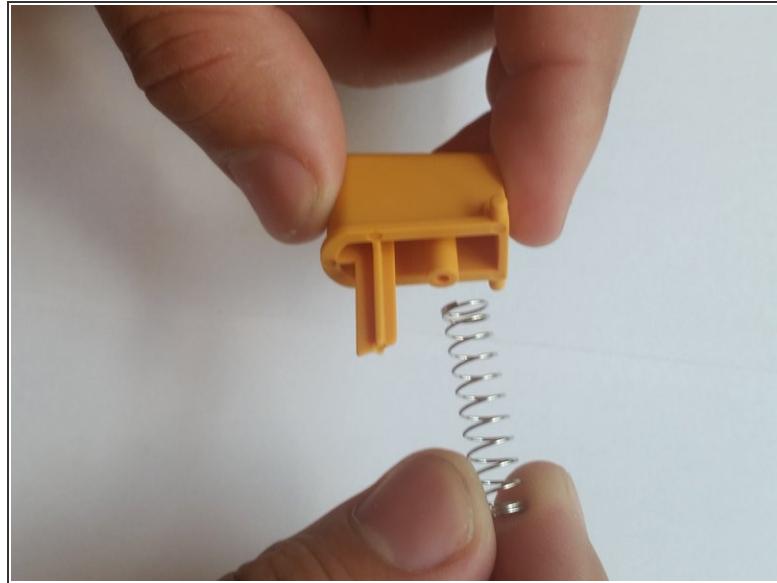

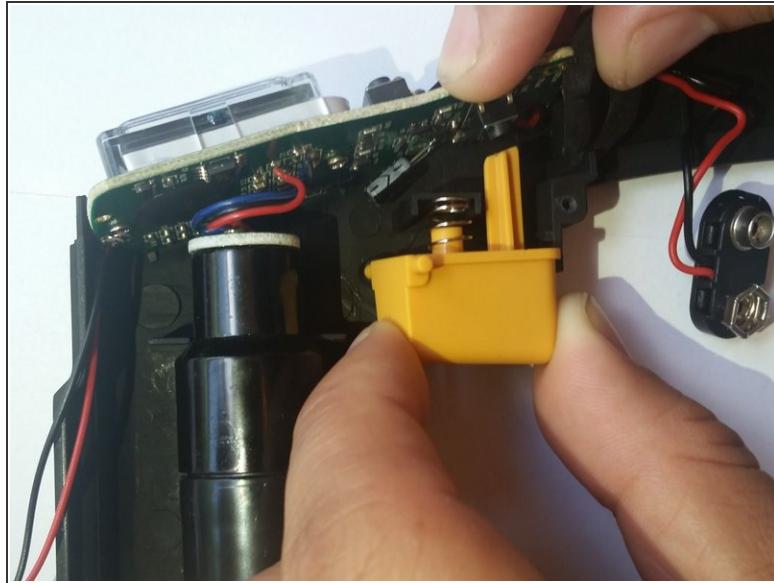

**⚠** Be careful not to lose any components on the inside.

## Step 8

- Realign the buttons with the button terminals.
- Red terminal to red button.
- Orange terminal to orange button.
- Yellow terminal to yellow button.

## Step 9 — Etekcity Lasergrip 1080 Trigger Replacement

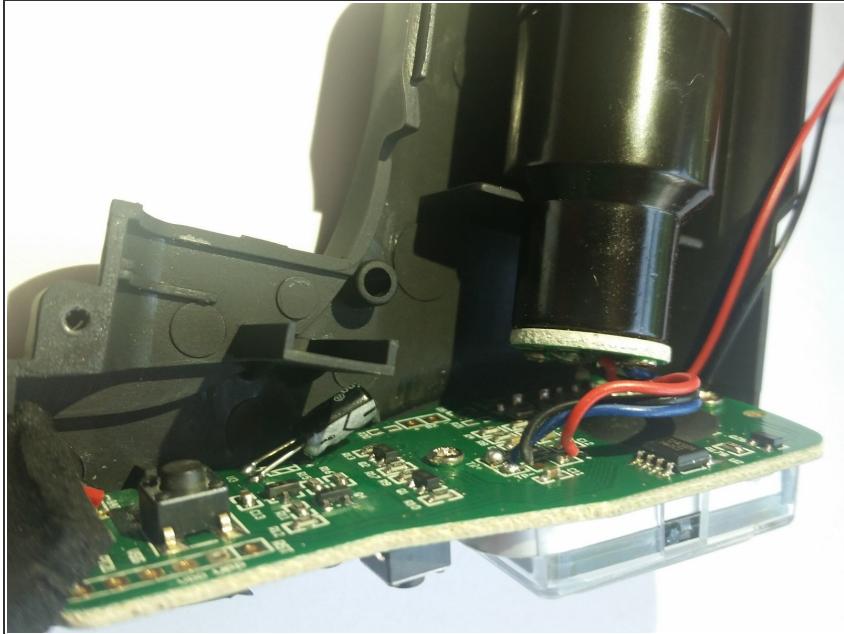

- Carefully pull the trigger out.

⚠ The trigger is spring loaded, so be careful that you do not lose the spring as you pull the trigger out.

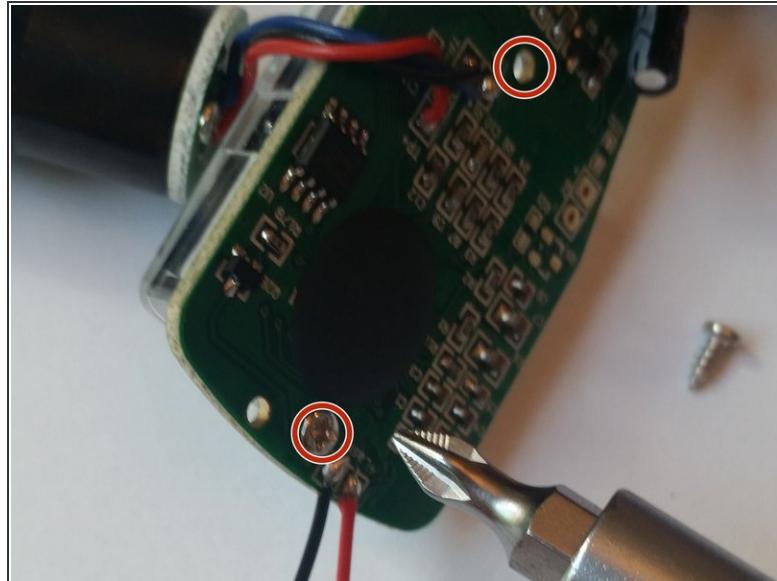

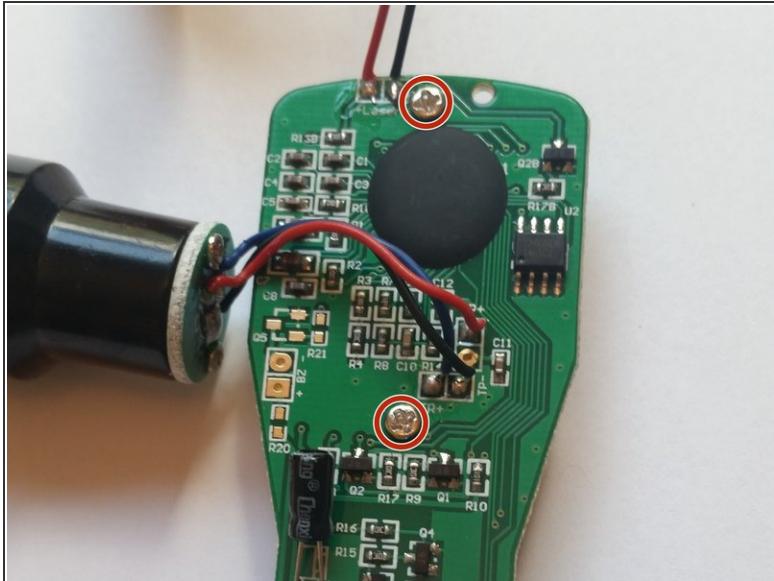

ⓘ To put the trigger back in, align the peg with the hole in the handle and align the shaft with the button terminal.

## Step 10 — Screen

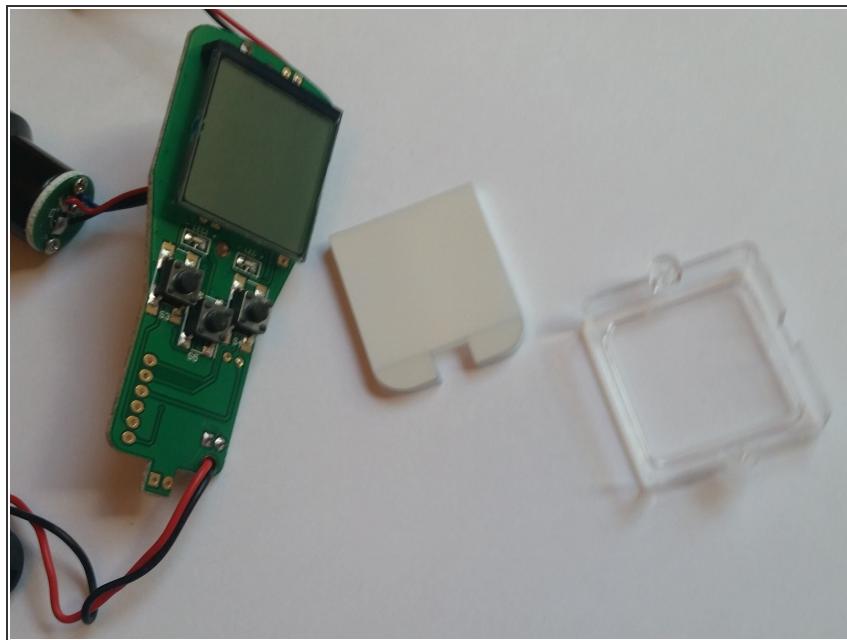

- Carefully pull the motherboard out of its slot in the body of the device.

## Step 11

- Unscrew the two 3.4 mm screws on the motherboard.

## Step 12

- Take off the cover and separate the parts.

 All of these parts are fragile and mishandling them may cause damage.

To reassemble your device, follow these instructions in reverse order.
