

# External Cover Replacement

Taking the external cover off the tablet.

Written By: Jason Wignot

---

## INTRODUCTION

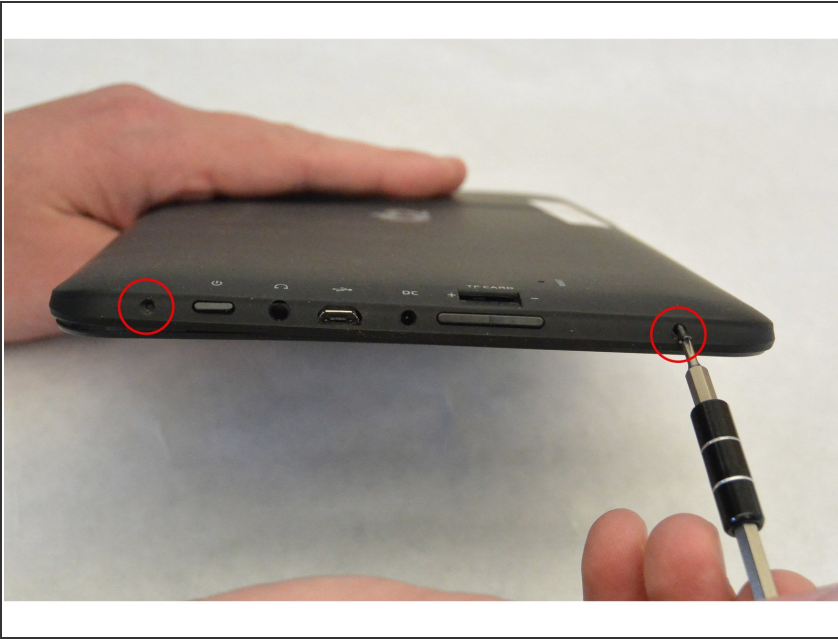

We will be removing taking some screws out and removing the external cover in order to replace internal components of the tablet.

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — External Cover

- Remove the two Phillips #00 screws from the bottom of the case.

## Step 2

- Wedge the opening tool in the space between the back and the front of the tablet.
- Carefully work your way around the perimeter, wedging the opening tool between the front and back of the tablet.
- When the back of the tablet is mostly detached from the front, carefully pull it away completely.
