

# Fairphone 2 Slim Case Replacement

This guide shows you how to replace the slim case of your FairPhone 2.

Written By: Tobias Isakeit

## INTRODUCTION

Use this guide shows to replace the slim case of your FairPhone 2.

If you still have the bumper made in one piece you maybe want to use [this guide](#).

## Step 1 — Slim Case

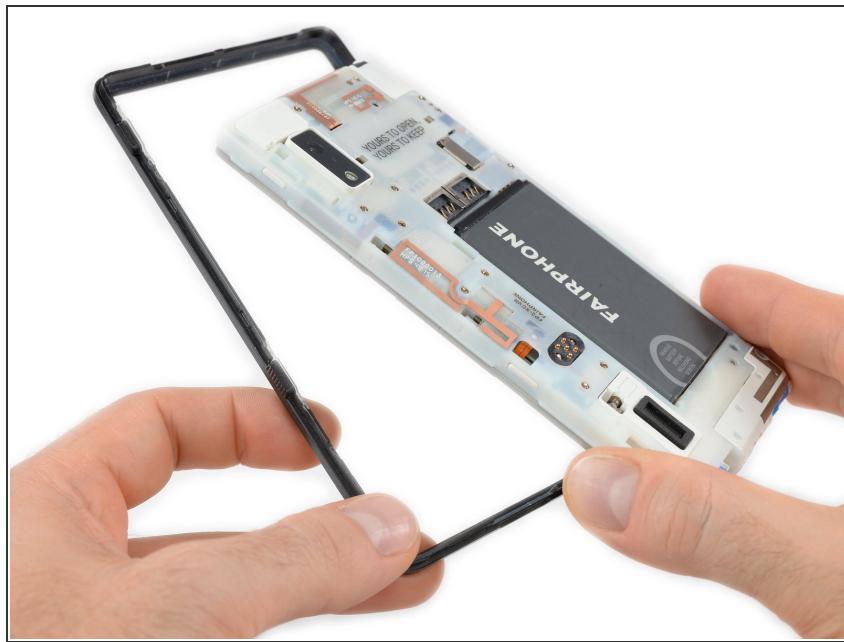

- Pick a corner of your slim case and get between the two parts with your thumb's fingernails.
- Pull up the back part of the slim case to separate the small snap fit connections.
- Remove the back part of the slim case.

## Step 2

- Get in between the front part of the slim case and the phone's body with your thumb nail.
- Separate the snap fit connectors on the front part by pulling it to the side and pushing against the display.

## Step 3

- Remove the front part of the slim case.

To reassemble your device, follow these instructions in reverse order.
