Step 1 — Battery

- Unlock the battery latch on the right.

- Unlock the battery lock on the left.

- Remove the battery pack from its slot.

Step 2 — Access to Components 2

- Using the Philips # 0 screwdriver, unscrew the 2 screws of the top cover

- Check the marks indicating the direction in which the cover must be removed.

- Remove the bottom cover by removing it in the direction of the markers.

Step 3

- Then appear the other components of the Laptop.

Step 4 — Fan

- Here is the fan.

- Disconnect the power cable from this one.

- Unscrew the screws that hold it in place.

Step 5

- Gently lift the fan out of its slot.

To reassemble your device follow the following instructions in reverse order
